1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Rejections Maintained

23. The rejection of claims 31, 42 and 43 under 35 U.S.C. 112, second paragraph, as being indefinite for identity of encoded polypeptide, is maintained for reasons of record.

Applicants argue that the amendments of the claims obviate the rejection.

The examiner has considered applicants' argument, in light of the claim amendments, but does not find it persuasive.

Claim 31 depends from claim 27 which is an isolated polynucleotide which "comprises" one of the nucleic acid sequences selected from the group consisting of SEQ ID NO:1 and 3. Because of the open language, the polynucleotide of claim 27 can have any number of residues on either end of SEQ ID NO:1 or 3. Thus, the claimed polypeptides encoded by the polynucleotide of claim 27 may still come from this unknown region and thus, the polypeptide identity remains unknown.

Conclusion

24. Claims 31, 42 and 43 are rejected.
